RGB: rgb(200,230,201)

Typography

Nunito is a well balanced sans serif typeface superfamily, with 2 versions: The project began with Nunito, created by Vernon Adams as a rounded terminal sans serif for display typography. Jacques Le Bailly extended it to a full set of weights, and an accompanying regular non-rounded terminal version, Nunito Sans. To contribute, please see github.com/Fonthausen/NunitoSans.
